## WHY CHOOSE BUREAU VERITAS

### A global leader /

In laboratory testing, inspection and certification with (75+) testing labs, 2000 food inspectors and auditors providing services worldwide.

### Field-to-fork services /

A comprehensive service portfolio to help clients along the entire food value chain comply with the highest standards of quality, product integrity, health and safety, and environmental and social responsibility.

### Expertise and reach /

International know-how combined with local knowledge and a deep understanding of food business challenges.

### Bureau Veritas brand /

A globally recognized symbol of quality and a commitment to excellence.

origin

The first consumer facing traceability claim, based on the Blockchain technology, that provides consumers with products proofs of quality. Origin gives access to the complete history of a product: where it comes from, how it was made and processed, and how its quality was preserved
