

# HEALTH & SAFETY MANAGEMENT SYSTEM CERTIFICATION

## Demonstrate Health & Safety best practices

---

### BUSINESS CHALLENGE

Your company's human capital is your greatest asset, which is why the health and well-being of your employees is one of the key drivers for the success of your business. The objective of ISO 45001 is to help you create a management system that proactively prevents injuries or illnesses.

### WHAT IS ISO 45001?

ISO 45001 is an international Occupational Health and Safety Management Systems (OHMS) standard. It enables an organization to have control over, and knowledge of, all relevant hazards resulting from normal operations and abnormal situations, and improve its performance.

### WHY SHOULD MY ORGANIZATION IMPLEMENT ISO 45001?

- **Improve your company's Health & Safety image:** by implementing ISO 45001 certification, you receive proof of your organization's ongoing commitment to the health and safety of your employees.
- **Demonstrate legal compliance to safety regulations:** a certified occupational health and safety management system provides assurance that legal compliance is effectively managed. Implementing it is now a legal requirement in many countries.
- **Reduce insurance premiums:** by reducing the number of accidents or damage to equipment or plant sites, an organization can also reduce insurance premiums, cost of fines and civil actions.
- **A mark to demonstrate your organization's commitment to excellence:** the Bureau Veritas Certification Mark is recognized and respected throughout the world as a valued symbol of reliability, sustainability & trust.

# HEALTH & SAFETY MANAGEMENT SYSTEM CERTIFICATION

## WHAT ARE THE KEY BENEFITS OF BEING CERTIFIED TO ISO 45001?

Reduce injuries, health problems and even fatalities due to work practices

More motivated employees, boosting consultation and participation

Clear leadership by management, as well as a commitment to the management system and compliance with it

A more precise definition of the occupational health and safety objectives of an organization

Better risk control and improved occupational health and safety performance and results

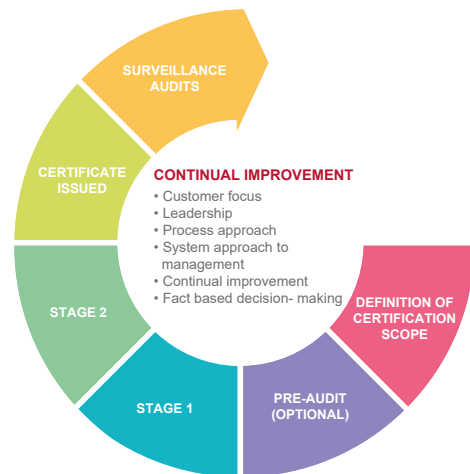

Proper development & dissemination of the work health & safety policy with clear leadership by management

## HOW DO I CERTIFY?

Key steps in our certification process are:

- **Definition of certification scope**
- **Pre-audit (optional):** gap analysis and diagnosis of your current position against standard
- **Certification audit** performed in 2 stages:
  - **Stage 1** - Readiness review performed to verify that the organization is ready for certification
  - **Stage 2** - Evaluation of implementation, including the effectiveness of the management system of the organization
- A **certificate** valid for 3 years is issued upon satisfactory results of stage 2 audit
- **Surveillance audits** to verify that the management system continues to fulfil the requirements of the standard and monitor the continual improvement
- **Re-certification** after 3 years to confirm the continued conformance and effectiveness of the management system as a whole

## WHY CHOOSE BUREAU VERITAS?

### NETWORK

With 148,000+ active ISO certificates and +7,400 skilled auditors, Bureau Veritas is present in 140 countries with local specialists in 80 countries.
